Mallett Magnet Clutch Release

Casselberry, Florida, 01/24/2020 - Motorcycle Performance Specialties is excited to announce the immediate availability of Mallett Magnet Clutch Release. This product is designed to allow you to pull in the clutch, push a button to lock the clutch lever in place. By releasing the button the unit releases the clutch lever. It is the perfect interface to use a delay box on a Hayabusa, ZX14, or GSXR1000. We recommend the MTC Gen II or lock up clutch set up to leave off a launch limiter or a wheelie bar be used in conjunction with the Mallett Magnet clutch release. Proven by Dustin Lee, many time sportsman champion.

P/N 25-MMBUSA and 25-MMGSXR1000 are racer priced at \$199.00. P/N 25-MMZX14 is racer priced at \$229.00. All are in stock for immediate shipment.
