MPS E Z Holley EFI Race Harness

Casselberry, Florida, 02/01/2013 - Motorcycle Performance Specialties is excited to announce the immediate availability of our EZ Holley EFI Race Harness. This nearly plug and play harness for the new Holley EFI will let you spend your time riding, not tangled up in wires. Every connection is clearly marked for a fast trouble free installation of your new engine management system. The MPS EZ Holley EFI Race Harness wires all mission critical systems on your race bike. You can easily wire your entire bike in less than a day with this harness. Builders can save time and increase job profits using this revolutionary new harness. MPS has done all the hard work for you so you can enjoy the benefits of your Holley EFI quickly. The EZ Holley EFI Race Harness comes with all the proper mating connectors, complete instructions and wire diagrams showing all wire connections.

Phone: 321.972.8282 – Fax: 321.972.5123
380 Orange Lane – Casselberry, Florida 32707

The EZ Holley EFI Race Harness has a system of sub-harnesses to customize the harness for the accessories you are using. Each sub harness comes with its own diagram showing where each wire goes.

The nitrous input and output sub-harnesses come pre wired with terminated connectors for the tether kill switch/on-off switch, shift light, auto shift/auto shift arm switch, 2 step switch, data log switch, air shifter switch, air shifter air valve, air shifter pressure switch, air shifter fuel kill, rear wheel speed sensor, nitrous arm switch, nitrous solid state relay, and nitrous solenoid.

The turbo input and output sub-harnesses come pre wired with terminated connectors for the tether kill switch/on-off switch, shift light, auto shift/auto shift arm switch, 2 step switch, data log switch, air shifter switch, air shifter air valve, air shifter pressure switch, air shifter fuel kill, rear wheel speed sensor, dome pressure sensor, boost controller + solenoid, and boost controller – solenoid.

The Injector sub-harnesses are configured for either 4 injectors or 8 injectors. The coil sub-harnesses are configured for either an MPS Ignitor and stock stick coils or LS2 smart coils. The sensor sub harness connects to all your standard EFI sensors. The main harness is terminated for the fuel pump and battery.

The EZ Holley EFI Race Harness, P/N 1-0627, is racer priced at just \$1100.00 and are in stock for immediate shipment.
