

Dear ebay Buyer,

My name is Dan Rudd, owner of MPS. It has come to my attention that eBay member angelojoanos has sold Air Shifter kits and represented them as MPS Air Shifters. I have worked for 26 years building MPS and don't need counterfeit products marring our reputation for quality products. I am currently gathering information to file an eBay complaint and possible criminal charges against this seller. I am requesting information regarding your transaction with this seller. Did this seller at any time lead you to believe the shifter you bought was an MPS product and did the kit you received include MPS instructions? Thank you very much for your cooperation and prompt response; any information will be helpful.
