KPM Hayabusa Valve Springs

Casselberry, Florida, 07/05/2012 - Motorcycle Performance Specialties is excited to announce the immediate availability of KPM Hayabusa Valve Springs. These high performance dual valve springs were specially designed for MPS by Kibblewhite Performance Machining. Designed for all popular cam profiles, these springs were computer simulated with extra attention paid to mass, rpm, harmonics, and stress evaluations to provide the best valve spring for your Hayabusa. They produce 65 pounds of seat pressure at 1.450" installed height and will not coil bind with cams up to .490 lift. KPM Hayabusa Valve Springs are made with premium grade super clean chrome silicon wire and are heat treated, shot peened, and stress relieved. P/N 71-1300-S-50 are priced at \$119.00 per set and are in stock for immediate shipment.
