MSD Dual Time Delay Switch

Sanford, Florida, 005/11/2006 – Motorcycle Performance Specialties is excited to announce the immediate availability of the MSD Dual Time Delay Switch. Do you need to activate a timing retard for a split second to get your small tire drag bike to hook up? Or what about activating a nitrous solenoid 0.8-seconds into a run? Or control the kill on a 1-2 or 1-2-3 auto trans? MSD's new Dual Time Delay Switch can accomplish both of these needs!

Phone: 407.330.9727 – Fax: 407.322.8632
5350 McIntosh Point #132 – Sanford, Florida 32773

Innovative Racing Electronics

The MSD Dual Time Delay Switch allows you to provide a ground, or remove a ground to a circuit or control relay to two different circuits. The Switch can easily be programmed in 0.01-second increments using the touch screen and the LED read out. The MSD Dual Time Delay Switch has a maximum current draw of 2 amps per switch. The MSD Dual Time Delay Switch is in stock and available for immediate shipment.
