## **MPS Offers Air Throttle Stop Upgrade**

Sanford, Florida, 01/28/2004 – For a limited time MPS will upgrade your original MPS Air Throttle Stop to the new style. This upgrade will qualify for the Prostar contingency of \$200 to win and \$100 to runner up in every class! We will convert your original MPS Air Throttle Stop to the new style stop for \$199.00. This will include a new air cylinder and mounting bracketry. The new style stop was made smaller by incorporating an adjustment lock collar directly to the air cylinder. By using this design we were able to eliminate the extra adjustment rod completely. The air cylinder screws directly onto the mount. This eliminates the set screws being tightened down on the thin stainless steel cylinder. This prevents any possibilities of bending the cylinder and binding the piston inside. We have eliminated the ball chain as well, eliminating all possibilities of breakage. This offer does not include air valves. Send us just your original MPS Air Throttle Stop with cables attached. We will ship you back an updated new style stop the same day yours was received.
