

MSD[®] IGNITION INSTALLATION INSTRUCTIONS

MSD Powersports Airshift Kill Harness for PN 4350 Launch Master PN 43503

Parts Included:

1 - Harness

1 - Parts bag

The Airshift kill harness will provide a splice-free installation when used with the MSD Launch Master. It will be installed on the four pin connector with the four tan wires.

Once you have connected the PN 43503 Harness you will need to connect the four tan wires to your aftermarket ignition kill device (Refer to the unit's installation instructions).
